

## Smithfield (Providence)

The town of Smithfield is located in Providence County with a population of 21,430 of whom 17% are age 65 or older. Smithfield older adults fare better than state estimates on some health indicators (more likely to have annual dental exams) but worse on others (higher rates of glaucoma and osteoarthritis/rheumatoid arthritis). Tri-Town Community Action agency, part of the state Aging and Disability Resource Center, the POINT Network, provides information, referral and assessment services for seniors and provides case management for seniors receiving state-funded home and community services. Age-friendly community resources include the Smithfield Department of Parks and Recreation offers senior league baseball. The Smithfield Senior Center provides senior transportation to the center and for local errands. The center also provides seniors with several activities including: computer classes, noon meals, billiards, bocce, quilting, bingo, and exercise classes. Residents age 60 and older report greater satisfaction with their neighborhoods than do state estimates.

<b>POPULATION CHARACTERISTICS</b>		
Total population all ages	21,430	1,052,567
Population 60 years or older as % of total population	22.9%	20.6%
Total population 60 years or older	4,918	217,066
Population 65 years or older as % of total population	16.8%	14.8%
Total population 65 years or older	3,599	155,558
% 65-74 years	51.2%	50.4%
% 75-84 years	29.4%	32.0%
% 85 years or older	19.4%	17.6%
Gender (65+ population)		
% female	57.8%	58.4%
Race/Ethnicity (65+ population)		
% White	99.1%	93.0%
% African American	0.4%	2.6%
% Asian	0.4%	1.3%
% Other	0.2%	3.2%
% Hispanic/Latino	0.5%	3.7%
Marital Status (65+ population)		
% married	53.6%	50.1%
% divorced/separated	9.4%	12.6%
% widowed	30.6%	30.8%
% never married	6.4%	6.4%
Education (65+ population)		
% with less than high school education	16.8%	26.8%
% with high school or some college	60.4%	50.7%
% with college degree	22.8%	22.5%
% of 60+ LGBT	2.1%	2.0%
% of 65+ population living alone	25.8%	30.4%
% of 65+ population who speak only English at home	91.2%	81.7%
% of 65+ population who are veterans of military service	27.3%	22.7%
Age-sex adjusted 1-year mortality rate	5.5%	4.8%

<b>HEALTHY AGING INDICATORS</b>	<b>BETTER / WORSE STATE RATE<sup>1</sup></b>	<b>COMMUNITY ESTIMATE<sup>2</sup></b>	<b>STATE ESTIMATE<sup>2</sup></b>
<b>Geographic Migration (65+ population)</b>			
% moved within same county		5.9%	3.5%
% moved from different county in Rhode Island		1.0%	0.8%
% moved from different state		0.1%	1.1%
% 60+ lived at same address 25 years or more		50.1%	48.1%
<b>WELLNESS and PREVENTION</b>			
% any physical activity within last month		69.5%	70.0%
% injured by a fall within last year		8.5%	10.0%
% ever had a hip fracture		4.7%	3.9%
% with self-reported fair or poor health status		18.2%	20.4%
% with 15+ physically unhealthy days last month		12.2%	13.9%
% with physical exam/check-up in past year		93.7%	91.9%

% with a regular doctor		96.3%	96.5%
% did not see a doctor when needed due to cost		4.7%	6.3%
# of primary care providers (within 5 miles)		12	1,566
# of hospitals (within 5 miles)		0	11
# of nursing homes (within 5 miles)		4	84
# of home health agencies (in same town)		20	38

<b>HEALTHY AGING INDICATORS</b>	<b>BETTER / WORSE STATE RATE<sup>1</sup></b>	<b>COMMUNITY ESTIMATE<sup>2</sup></b>	<b>STATE ESTIMATE<sup>2</sup></b>
<b>SERVICE UTILIZATION</b>			
Physician visits per year	*	8.6	8.0
Emergency room visits/1000 persons 65+ years per year		649	628
Part D monthly prescription fills per person per year		53.8	54.2
Home health visits per year		4.0	3.7
Durable medical equipment claims per year		1.9	2.0
Inpatient hospital stays/1000 persons 65+ years per year		306	284
Inpatient hospital readmissions (as % of admissions)		17.3%	16.9%
Skilled nursing facility stays/1000 persons 65+ years per year	*	148	100
Total skilled nursing home Medicare beds/1000 persons 65+ years		127	52
% 65+ getting Medicaid long term services and supports		6.7%	6.2%
<b>COMMUNITY VARIABLES &amp; CIVIC ENGAGEMENT</b>			
Air Pollution/Air Quality Index			
Annual # of unhealthy days for older adults		1	NA
Walkability of Community			
Walkability score (0-100)		23	NA
% of vacant housing units in community		6.3%	11.3%
% 60+ who are satisfied with neighborhood	B	89.0%	80.0%
# of registered voters (age 18+)		15,896	725,309
Voter participation rate in 2012 presidential election (age 18+)		63.9%	61.5%
% 60+ who believe local service orgs understand needs		39.6%	44.1%
% 60+ who believe he/she can make a difference		49.8%	51.6%
% 60+ who believe working together can make a difference		82.2%	81.0%
% 60+ who volunteer at least once per month		20.5%	22.8%
% 60+ who attend community events (e.g., church, club) at least once per month		40.0%	44.2%
<b>SAFETY AND TRANSPORTATION</b>			
Violent crime rate / 100,000 persons		74	253
Property crime rate / 100,000 persons		1,014	2,394
# of motor vehicle fatalities involving adult age 60+/town		2	90
# of motor vehicle fatalities involving adult age 60+/county		40	90
# of alternative transportation programs by county		26	43
Municipal senior transportation available		Yes	NA
Volunteer driver programs available		NA	NA

Couple, renter, good health	\$33,516	\$33,708	0.99

TECHNICAL NOTES: Read our technical report for information on data sources and methodology at <http://healthyagingdatareports.org/ri/technicalreport>.

<sup>1</sup> For most indicators the community and state values are both statistical estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “better” and “worse” to highlight differences between community and state estimates that we are confident are not due to chance. When an upper case letter is used the 95% confidence intervals were used, the lowercase indicates a 90% confidence interval. When the implication for healthy aging is unclear we use an “.”

<sup>2</sup> “C” indicates that the community rate is censored due to inadequate sample size and “NA” indicates that the data were not available.

#### Other notes:

- We used a hierarchical approach to reporting estimates for every city/town in Rhode Island when data allow. In other cases, we could only report indicators for aggregated areas (e.g., cities and towns with similar demographic and socioeconomic population composition were combined for some indicators and counties were used for others). The same estimate is reported for all cities/towns within aggregated geographic areas.
- Total population estimates are from the 2010 Census and are reported for the 41 geographic units. Other population characteristic estimates are from the American Community Survey (ACS) (2009-2013) and are reported for 41 geographic units. Note that % may not add up to 100% due to rounding error.
- Mortality rate, specific chronic disease, access and utilization estimates are for beneficiaries 65 years or older in 2013 from the 2012 and 2013 Centers for Medicare and Medicaid Services (CMS) Master Beneficiary Summary File (MBSF).
- The 2009-2014 Behavioral Risk Factor Surveillance System (BRFSS) is the source for wellness, health behavior, and some prevention estimates. BRFSS indicators were estimated for persons 60 years or older for 14 aggregated geographic areas derived by combining cities and towns with similar population composition. The same rate is reported for all cities/towns within the same unit.
- Access to care data pertaining to the # of primary care providers, hospitals, nursing homes, and home health agencies were obtained from the following CMS websites: <http://www.medicare.gov/nursinghomecompare/search.html>, <http://www.medicare.gov/homehealthcompare/search.html>, <http://www.medicare.gov/hospitalcompare/search.html>, <http://www.medicare.gov/physiciancompare/results.html>. The dentist data come from the RI Department of Health (<http://www.health.ri.gov/find/oralhealthservices/>).
- Walkability Estimates were downloaded from <http://www.walkscore.com/> using the finder term “city/town name, Rhode Island.”
- Air pollution/air quality estimates are from the US Environmental Protection Agency reported for 3 RI counties for older adults with no specific health concerns (2015). The same rate is reported for cities/towns within the same county.
- 2012 voter participation data from the Rhode Island Board of Elections.
- Crime estimates are from 2013 FBI Uniform Crime Reports (<http://www.fbi.gov/stats-services/crimestats>).
- Data on fatal auto (driver, passenger) and pedestrian accidents for persons age 60+ is from the Fatal Accident Reporting System of the National Highway Traffic Safety Administration (2009-2013), reported at the town and county level.
- The housing, migration, and income indicators are from the ACS (2009-2013) and are reported for individual cities/towns.
- The 2016 Elder Economic Security Standard Index estimates were obtained from researchers at the University of Massachusetts Boston Center for Social and Demographic Research on Aging.
- Our research team: Elizabeth Dugan, Frank Porell and Nina Silverstein. Graduate Student researchers included: Chae Man Lee, Hyo Jung Lee, Bon Kim, and Krystal Kittle. We thank Amanda Cox from the [NYTimes.com](http://www.nytimes.com) for data visualizations; and Maureen Maigret for sharing data on municipal senior transportation and volunteer driver programs collected by Mensel & Maigret (April, 2016). Please send your questions, comments, or ideas to [beth.dugan@umb.edu](mailto:beth.dugan@umb.edu). Let us know how you are using the Data Report in your community!
