

New Ipswich (Hillsborough)

New Ipswich is a town located in southern New Hampshire and was the first town in the state to be declared a Purple Heart Community. There are 550 residents age 65 or older. Compared to state average rates, older residents fared better on some healthy aging indicators with lower rates of hip fracture, high cholesterol, depression, anxiety disorders, post-traumatic stress disorder, schizophrenia and other psychotic disorders, stroke, heart attack, peripheral vascular disease, osteoarthritis/rheumatoid arthritis, osteoporosis, breast cancer, prostate cancer, anemia, traumatic brain injury, and hearing impairment. However, they had a higher rate of glaucoma. They are less likely to take the health promotion step of getting a regular mammogram. Community resources to support healthy aging include 2 primary care providers within 5 miles, a home health agency, an assisted living site, a public library, and access to broadband.

POPULATION CHARACTERISTICS	BETTER / WORSE STATE RATE¹	COMMUNITY ESTIMATE	STATE ESTIMATE
Total population all ages		5,155	1,327,503
Population 60 years or older as % of total population		19.5%	22.7%
Total population 60 years or older		1,006	301,630
Population 65 years or older as % of total population		10.7%	15.8%
Total population 65 years or older		550	210,385
% 65-74 years		70.2%	58.5%
% 75-84 years		23.6%	28.6%
% 85 years or older		6.2%	12.9%
Gender (65+ population)			
% female		44.9%	54.7%
Race/Ethnicity (65+ population)			
% White		100.0%	97.7%
% African American		0.0%	0.5%
% Asian		0.0%	0.9%
% Other		0.0%	0.9%
% Hispanic/Latino		0.0%	0.9%
Marital Status (65+ population)			
% married		57.6%	58.5%
% divorced/separated		18.4%	14.0%
% widowed		17.3%	22.9%
% never married		6.7%	4.6%
Education (65+ population)			
% with less than high school education		12.2%	12.3%
% with high school or some college		46.4%	57.1%
% with college degree		41.5%	30.6%
% of 65+ population living alone		25.3%	26.1%
% of 65+ population who speak only English at home		85.1%	91.3%
% of 65+ population who are veterans of military service		26.4%	24.8%
Age-sex adjusted 1-year mortality rate		5.0%	4.1%

HEALTHY AGING INDICATORS	BETTER / WORSE STATE RATE¹	COMMUNITY ESTIMATE	STATE ESTIMATE
Geographic Migration (65+ population) in the past 12 months			
% moved within same county		0.0%	3.6%
% moved from different county in New Hampshire		0.0%	1.0%
% moved from different state		0.0%	1.7%
WELLNESS & PREVENTION			
% 60+ with any physical activity within last month		78.4%	74.5%
% 60+ met CDC guidelines for muscle-strengthening activity		27.7%	26.0%
% 60+ met CDC guidelines for aerobic physical activity		67.0%	58.6%
% 60+ met CDC guidelines for both types of physical activities		22.4%	19.9%
% 60+ getting recommended hours of sleep		63.9%	66.4%
% 60+ injured in a fall within last 12 months		10.7%	10.4%
% 65+ had hip fracture	B	2.2%	3.3%
% 60+ with self-reported fair or poor health status		13.9%	16.5%
% 60+ with 15+ physically unhealthy days last month		10.6%	12.5%
% 60+ with physical exam/check-up in past year		84.3%	86.5%
% 60+ met CDC preventive health screening goals		39.4%	40.3%
% 60+ flu shot past year		55.8%	59.3%
% 65+ with pneumonia vaccine		73.5%	77.8%
% 60+ with cholesterol screening		95.6%	95.3%
% 60+ women with a mammogram within last 2 years	W	67.9%	79.3%
% 60+ with colorectal cancer screening		73.9%	77.0%
% 60+ with HIV test		11.8%	13.5%
% 60+ current smokers		8.1%	8.1%
Oral Health

% households with annual income > \$50,000		51.2%	45.3%
% 60+ own home		91.0%	79.9%
% 60+ have mortgage on home		44.8%	35.3%
% 65+ households spend >35% of income on housing (renter)		9.1%	8.7%
% 65+ households spend >35% of income on housing (owner)		28.7%	21.2%
COST OF LIVING	\$ COUNTY ESTIMATE	\$ STATE ESTIMATE	RATIO (COUNTY/STATE)
Elder Economic Security Standard Index			
Single, homeowner without mortgage, good health	\$26,196	\$25,284	1.04
Single, renter, good health	\$27,264	\$26,400	1.03
Couple, homeowner without mortgage, good health	\$38,160	\$37,128	1.03
Couple, renter, good health	\$39,228	\$38,244	1.03

TECHNICAL NOTES

*See our technical report (online at <https://healthyagingdatareports.org/>) for more information on data sources, measures, methodology, and margin of errors. For most indicators the reported community and state values are both estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms "better" and "worse" to highlight differences between community and state estimates that we are confident are not due to chance. "Better" is used where a higher/lower value has positive implications for the health of older residents. "Worse" is used where a higher/lower score has negative implications for the health of older people, and when the implication is unclear, we use an *. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed we used a hierarchical approach to reporting. When possible we report estimates for 244 geographic units (i.e., every NH city/town and 5 Manchester neighborhoods, 4 Nashua neighborhoods). For example, the population characteristics were reported for all 244 units. For other data (i.e., highly prevalent chronic disease, health services utilization) we could report for 154 geographic units. For less prevalent conditions we report for 69 geographic units. For the BRFSS data we report for 28 geographic units, and for the lowest prevalence conditions (e.g., HIV) we report for 4 geographic units. The same estimate is reported for all cities/towns within aggregated geographic areas. Maps of the different geographic groupings and the rationale behind the groupings are in the Technical Report.

Data Sources:

- Population Characteristics: The U.S. Census Bureau (American Community Survey 2012-2016).
- Wellness & Prevention: The Behavioral Risk Factor Surveillance System (2011-2016).
- Nutrition/Diet: BRFSS (2011-2016), CMS (2014-2015), and the U.S. Department of Agriculture Food Atlas (2017).
- Behavioral Health: BRFSS (2011-2016), CMS (2014-2015), CDC Wonder website (2014-2016).
- Chronic Disease: The Master Beneficiary Summary File ABCD/Other from CMS (2014-2015).
- Disability: CMS (2014-2015) for the clinical measures, and ACS (2012-2016) for the self-reported disability.
- Access to Care: BRFSS (2011-2016), CMS (2015), Medicare.gov (June-July 2018), the NH Division of Public Health Services (2018), National Adult Day Services Association (2018), memorycaresdirectory.com (2018), and the Alzheimer's Association (July 2018).
- Service Utilization: CMS (2015), and Medicare Nursing Home Compare (December 2018).
