

Hudson (Hillsborough)

Hudson is an urban town located in southern New Hampshire and home to Hills Memorial Library, one of the oldest public lending libraries in the state. There are 3,612 residents age 65 or older. Compared to state average rates, older residents fared better on some healthy aging indicators with lower rates of depression, personality disorders, Alzheimer’s disease or related dementias, congestive heart failure, fibromyalgia/chronic pain/fatigue, traumatic brain injury, glaucoma, pressure ulcers, and hearing impairment. However, they had higher rates of obesity, high cholesterol, diabetes, asthma, hypertension, anemia, and chronic kidney disease. They are less likely to take the health promotion steps of following the CDC guidelines for both muscle-strengthening and aerobic physical activity. Community resources to support healthy aging include 209 primary care providers within 5 miles, 3 nursing homes, 2 hospitals, 17 home health agencies, an adult day health center, 2 dementia support groups, a senior center, an assisted living site, a public library, and access to broadband.

POPULATION CHARACTERISTICS	BETTER / WORSE STATE RATE¹	COMMUNITY ESTIMATE	STATE ESTIMATE
Total population all ages		24,808	1,327,503
Population 60 years or older as % of total population		20.3%	22.7%
Total population 60 years or older		5,034	301,630
Population 65 years or older as % of total population		14.6%	15.8%
Total population 65 years or older		3,612	210,385
% 65-74 years		59.9%	58.5%
% 75-84 years		31.9%	28.6%
% 85 years or older		8.1%	12.9%
Gender (65+ population)			
% female		50.4%	54.7%
Race/Ethnicity (65+ population)			
% White		93.8%	97.7%
% African American		2.4%	0.5%
% Asian		3.1%	0.9%
% Other		0.8%	0.9%
% Hispanic/Latino		1.1%	0.9%
Marital Status (65+ population)			
% married		63.4%	58.5%
% divorced/separated		9.9%	14.0%
% widowed		23.4%	22.9%
% never married		3.2%	4.6%
Education (65+ population)			
% with less than high school education		18.0%	12.3%
% with high school or some college		59.0%	57.1%
% with college degree		23.0%	30.6%
% of 65+ population living alone		17.1%	26.1%
% of 65+ population who speak only English at home		86.8%	91.3%
% of 65+ population who are veterans of military service		31.2%	24.8%
Age-sex adjusted 1-year mortality rate		4.4%	4.1%

HEALTHY AGING INDICATORS	BETTER / WORSE STATE RATE¹	COMMUNITY ESTIMATE	STATE ESTIMATE
Geographic Migration (65+ population) in the past 12 months			
% moved within same county		6.1%	3.6%
% moved from different county in New Hampshire		3.0%	1.0%
% moved from different state		1.6%	1.7%
WELLNESS & PREVENTION			
% 60+ with any physical activity within last month		73.1%	74.5%
% 60+ met CDC guidelines for muscle-strengthening activity		27.7%	26.0%
% 60+ met CDC guidelines for aerobic physical activity		51.4%	58.6%
% 60+ met CDC guidelines for both types of physical activities		19.6%	19.9%
% 60+ getting recommended hours of sleep		64.5%	66.4%
% 60+ injured in a fall within last 12 months		12.0%	10.4%
% 65+ had hip fracture		2.9%	3.3%
% 60+ with self-reported fair or poor health status		13.5%	16.5%
% 60+ with 15+ physically unhealthy days last month		9.6%	12.5%
% 60+ with physical exam/check-up in past year		88.7%	86.5%
% 60+ met CDC preventive health screening goals		40.5%	40.3%
% 60+ flu shot past year		59.4%	59.3%
% 65+ with pneumonia vaccine		76.3%	77.8%
% 60+ with cholesterol screening		96.4%	95.3%
% 60+ women with a mammogram within last 2 years		83.3%	79.3%
% 60+ with colorectal cancer screening		79.8%	77.0%
% 60+ with HIV test		18.5%	13.5%
% 60+ current smokers		5.9%	8.1%
Oral Health			
% 60+ with loss of 6 or more teeth		23.9%	29.0%
% 60+ with annual dental exam		76.5%	75.7%
# of dentists per 100,000 persons (all ages) (county)		77	72
NUTRITION/DIET			
% 60+ with 5 or more servings of fruit or vegetables per day		19.6%	20.2%
% 60+ self-reported obese	W	35.2%	27.2%
% 65+ clinically diagnosed obese		16.1%	16.7%
% 65+ with high cholesterol	W	77.8%	72.2%
% 60+ excessive drinking		8.9%	9.2%
% 65+ with poor supermarket access		40.1%	28.4%

ECONOMIC & HOUSING VARIABLES			
% 65+ with income below the poverty line past year		6.5%	5.4%
% 60+ receiving food stamps past year		3.2%	5.7%
% 65+ employed past year		20.6%	24.8%
Household income (65+ householder)			
% households with annual income < \$20,000		14.6%	18.2%
% households with annual income \$20,000-\$49,999		31.2%	36.5%
% households with annual income > \$50,000		54.1%	45.3%
% 60+ own home		77.8%	79.9%
% 60+ have mortgage on home		34.3%	35.3%
% 65+ households spend >35% of income on housing (renter)		6.2%	8.7%
% 65+ households spend >35% of income on housing (owner)		18.0%	21.2%
COST OF LIVING	\$ COUNTY ESTIMATE	\$ STATE ESTIMATE	RATIO (COUNTY/STATE)
Elder Economic Security Standard Index			
Single, homeowner without mortgage, good health	\$26,196	\$25,284	1.04
Single, renter, good health	\$27,264	\$26,400	1.03
Couple, homeowner without mortgage, good health	\$38,160	\$37,128	1.03
Couple, renter, good health	\$39,228	\$38,244	1.03

TECHNICAL NOTES

*See our technical report (online at <https://healthyagingdatareports.org/>) for more information on data sources, measures, methodology, and margin of errors. For most indicators the reported community and state values are both estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “better” and “worse” to highlight differences between community and state estimates that we are confident are not due to chance. “Better” is used where a higher/lower value has positive implications for the health of older residents. “Worse” is used where a higher/lower score has negative implications for the health of older people, and when the implication is unclear, we use an *. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed we used a hierarchical approach to reporting. When possible we report estimates for 244 geographic units (i.e., every NH city/town and 5 Manchester neighborhoods, 4 Nashua neighborhoods). For example, the population characteristics were reported for all 244 units. For other data (i.e., highly prevalent chronic disease, health services utilization) we could report for 154 geographic units. For less prevalent conditions we report for 69 geographic units. For the BRFSS data we report for 28 geographic units, and for the lowest prevalence conditions (e.g., HIV) we report for 4 geographic units. The same estimate is reported for all cities/towns within aggregated geographic areas. Maps of the different geographic groupings and the rationale behind the groupings are in the Technical Report.

Data Sources:

- Population Characteristics: The U.S. Census Bureau (American Community Survey 2012-2016).
- Wellness & Prevention: The Behavioral Risk Factor Surveillance System (2011-2016).
- Nutrition/Diet: BRFSS (2011-2016), CMS (2014-2015), and the U.S. Department of Agriculture Food Atlas (2017).
- Behavioral Health: BRFSS (2011-2016), CMS (2014-2015), CDC Wonder website (2014-2016).
- Chronic Disease: The Master Beneficiary Summary File ABCD/Other from CMS (2014-2015).
- Disability: CMS (2014-2015) for the clinical measures, and ACS (2012-2016) for the self-reported disability.
- Access to Care: BRFSS (2011-2016), CMS (2015), Medicare.gov (June-July 2018), the NH Division of Public Health Services (2018), National Adult Day Services Association (2018), memorycaredirectory.com (2018), and the Alzheimer’s Association (July 2018).
