

Madison (Carroll)

Madison is a town located in Carroll County and is home to the Madison Boulder Natural Area. There are 490 residents age 65 or older. Compared to state average rates, older residents fared better on some healthy aging indicators with lower rates of hip fracture, obesity, high cholesterol, anxiety and bipolar disorders, schizophrenia and other psychotic disorders, personality disorders, tobacco use disorders, Alzheimer’s disease or related dementias, chronic obstructive pulmonary disease, hypertension, peripheral vascular disease, osteoarthritis/rheumatoid arthritis, lung cancer, anemia, chronic kidney disease, fibromyalgia/chronic pain/fatigue, epilepsy, and visual impairment. However, they had a higher rate of glaucoma. They are more likely to take the health promotion step of engaging in any physical activity within the last month. Community resources to support healthy aging include a home health agency, an assisted living site, a public library, and access to broadband. Madison is a designated Age-Friendly community.

POPULATION CHARACTERISTICS	BETTER / WORSE STATE RATE¹	COMMUNITY ESTIMATE	STATE ESTIMATE
Total population all ages		2,519	1,327,503
Population 60 years or older as % of total population		24.2%	22.7%
Total population 60 years or older		609	301,630
Population 65 years or older as % of total population		19.5%	15.8%
Total population 65 years or older		490	210,385
% 65-74 years		60.2%	58.5%
% 75-84 years		32.2%	28.6%
% 85 years or older		7.6%	12.9%
Gender (65+ population)			
% female		53.3%	54.7%
Race/Ethnicity (65+ population)			
% White		100.0%	97.7%
% African American		0.0%	0.5%
% Asian		0.0%	0.9%
% Other		0.0%	0.9%
% Hispanic/Latino		0.0%	0.9%
Marital Status (65+ population)			
% married		58.6%	58.5%
% divorced/separated		8.6%	14.0%
% widowed		31.6%	22.9%
% never married		1.2%	4.6%
Education (65+ population)			
% with less than high school education		14.5%	12.3%
% with high school or some college		42.4%	57.1%
% with college degree		43.1%	30.6%
% of 65+ population living alone		28.8%	26.1%
% of 65+ population who speak only English at home		95.5%	91.3%
% of 65+ population who are veterans of military service		21.4%	24.8%
Age-sex adjusted 1-year mortality rate		4.5%	4.1%

HEALTHY AGING INDICATORS	BETTER / WORSE STATE RATE¹	COMMUNITY ESTIMATE	STATE ESTIMATE
Geographic Migration (65+ population) in the past 12 months			
% moved within same county		3.3%	3.6%
% moved from different county in New Hampshire		0.0%	1.0%
% moved from different state		2.2%	1.7%
WELLNESS & PREVENTION			
% 60+ with any physical activity within last month	B	80.6%	74.5%
% 60+ met CDC guidelines for muscle-strengthening activity		28.5%	26.0%
% 60+ met CDC guidelines for aerobic physical activity		65.4%	58.6%
% 60+ met CDC guidelines for both types of physical activities		21.0%	19.9%
% 60+ getting recommended hours of sleep		68.4%	66.4%
% 60+ injured in a fall within last 12 months		11.1%	10.4%
% 65+ had hip fracture	B	2.7%	3.3%
% 60+ with self-reported fair or poor health status		14.9%	16.5%
% 60+ with 15+ physically unhealthy days last month		12.6%	12.5%
% 60+ with physical exam/check-up in past year		82.7%	86.5%
% 60+ met CDC preventive health screening goals		39.7%	40.3%
% 60+ flu shot past year		58.8%	59.3%
% 65+ with pneumonia vaccine		72.5%	77.8%
% 60+ with cholesterol screening		92.7%	95.3%
% 60+ women with a mammogram within last 2 years		78.4%	79.3%
% 60+ with colorectal cancer screening		73.0%	77.0%
% 60+ with HIV test		11.4%	13.5%
% 60+ current smokers		6.6%	8.1%
Oral Health

ECONOMIC & HOUSING VARIABLES			
% 65+ with income below the poverty line past year		14.1%	5.4%
% 60+ receiving food stamps past year		1.2%	5.7%
% 65+ employed past year		32.7%	24.8%
Household income (65+ householder)			
% households with annual income < \$20,000		30.0%	18.2%
% households with annual income \$20,000-\$49,999		21.3%	36.5%
% households with annual income > \$50,000		48.7%	45.3%
% 60+ own home		96.8%	79.9%
% 60+ have mortgage on home		32.0%	35.3%
% 65+ households spend >35% of income on housing (renter)		0.0%	8.7%
% 65+ households spend >35% of income on housing (owner)		16.0%	21.2%
COST OF LIVING	\$ COUNTY ESTIMATE	\$ STATE ESTIMATE	RATIO (COUNTY/STATE)
Elder Economic Security Standard Index			
Single, homeowner without mortgage, good health	\$24,024	\$25,284	0.95
Single, renter, good health	\$25,752	\$26,400	0.98
Couple, homeowner without mortgage, good health	\$35,952	\$37,128	0.97
Couple, renter, good health	\$37,680	\$38,244	0.99

TECHNICAL NOTES

*See our technical report (online at <https://healthyagingdatareports.org/>) for more information on data sources, measures, methodology, and margin of errors. For most indicators the reported community and state values are both estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “better” and “worse” to highlight differences between community and state estimates that we are confident are not due to chance. “Better” is used where a higher/lower value has positive implications for the health of older residents. “Worse” is used where a higher/lower score has negative implications for the health of older people, and when the implication is unclear, we use an *. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed we used a hierarchical approach to reporting. When possible we report estimates for 244 geographic units (i.e., every NH city/town and 5 Manchester neighborhoods, 4 Nashua neighborhoods). For example, the population characteristics were reported for all 244 units. For other data (i.e., highly prevalent chronic disease, health services utilization) we could report for 154 geographic units. For less prevalent conditions we report for 69 geographic units. For the BRFSS data we report for 28 geographic units, and for the lowest prevalence conditions (e.g., HIV) we report for 4 geographic units. The same estimate is reported for all cities/towns within aggregated geographic areas. Maps of the different geographic groupings and the rationale behind the groupings are in the Technical Report.
