

Barnstead (Belknap)

Barnstead is a rural town in central New Hampshire that is home to the Suncook Lakes. There are 647 residents age 65 or older. Compared to state average rates, older residents fared better on some healthy aging indicators with lower rates of schizophrenia and other psychotic disorders, Alzheimer’s disease or related dementias, osteoarthritis/rheumatoid arthritis, osteoporosis, leukemias and lymphomas, hypothyroidism, anemia, liver diseases, migraine, traumatic brain injury, cataracts, and hearing impairment. However, they had higher rates of obesity and tobacco use disorders. Community resources to support healthy aging include 3 home health agencies, a public library, and access to broadband.

POPULATION CHARACTERISTICS	BETTER / WORSE STATE RATE¹	COMMUNITY ESTIMATE	STATE ESTIMATE
Total population all ages		4,631	1,327,503
Population 60 years or older as % of total population		21.9%	22.7%
Total population 60 years or older		1,015	301,630
Population 65 years or older as % of total population		14.0%	15.8%
Total population 65 years or older		647	210,385
% 65-74 years		58.4%	58.5%
% 75-84 years		30.9%	28.6%
% 85 years or older		10.7%	12.9%
Gender (65+ population)			
% female		52.1%	54.7%
Race/Ethnicity (65+ population)			
% White		100.0%	97.7%
% African American		0.0%	0.5%
% Asian		0.0%	0.9%
% Other		0.0%	0.9%
% Hispanic/Latino		0.0%	0.9%
Marital Status (65+ population)			
% married		69.1%	58.5%
% divorced/separated		11.9%	14.0%
% widowed		17.6%	22.9%
% never married		1.4%	4.6%
Education (65+ population)			
% with less than high school education		10.4%	12.3%
% with high school or some college		75.3%	57.1%
% with college degree		14.4%	30.6%
% of 65+ population living alone		14.5%	26.1%
% of 65+ population who speak only English at home		92.7%	91.3%
% of 65+ population who are veterans of military service		29.1%	24.8%
Age-sex adjusted 1-year mortality rate		3.8%	4.1%

HEALTHY AGING INDICATORS	BETTER / WORSE STATE RATE¹	COMMUNITY ESTIMATE	STATE ESTIMATE
Geographic Migration (65+ population) in the past 12 months			
% moved within same county		0.0%	3.6%
% moved from different county in New Hampshire		1.7%	1.0%
% moved from different state		0.0%	1.7%
WELLNESS & PREVENTION			
% 60+ with any physical activity within last month		70.7%	74.5%
% 60+ met CDC guidelines for muscle-strengthening activity		23.0%	26.0%
% 60+ met CDC guidelines for aerobic physical activity		57.0%	58.6%
% 60+ met CDC guidelines for both types of physical activities		15.7%	19.9%
% 60+ getting recommended hours of sleep		65.1%	66.4%
% 60+ injured in a fall within last 12 months		7.2%	10.4%
% 65+ had hip fracture		3.2%	3.3%
% 60+ with self-reported fair or poor health status		17.1%	16.5%
% 60+ with 15+ physically unhealthy days last month		11.0%	12.5%
% 60+ with physical exam/check-up in past year		86.1%	86.5%
% 60+ met CDC preventive health screening goals		35.5%	40.3%
% 60+ flu shot past year		54.5%	59.3%
% 65+ with pneumonia vaccine		77.4%	77.8%
% 60+ with cholesterol screening		92.5%	95.3%
% 60+ women with a mammogram within last 2 years		74.3%	79.3%
% 60+ with colorectal cancer screening		81.5%	77.0%
% 60+ with HIV test		9.3%	13.5%
% 60+ current smokers		8.9%	8.1%
Oral Health			
% 60+ with loss of 6 or more teeth		27.7%	29.0%

% households with annual income > \$50,000		58.2%	45.3%
% 60+ own home		95.2%	79.9%
% 60+ have mortgage on home		43.9%	35.3%
% 65+ households spend >35% of income on housing (renter)		0.0%	8.7%
% 65+ households spend >35% of income on housing (owner)		23.2%	21.2%
COST OF LIVING	\$ COUNTY ESTIMATE	\$ STATE ESTIMATE	RATIO (COUNTY/STATE)
Elder Economic Security Standard Index			
Single, homeowner without mortgage, good health	\$24,000	\$25,284	0.95
Single, renter, good health	\$25,032	\$26,400	0.95
Couple, homeowner without mortgage, good health	\$35,940	\$37,128	0.97
Couple, renter, good health	\$36,972	\$38,244	0.97

TECHNICAL NOTES

*See our technical report (online at <https://healthyagingdatareports.org/>) for more information on data sources, measures, methodology, and margin of errors. For most indicators the reported community and state values are both estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “better” and “worse” to highlight differences between community and state estimates that we are confident are not due to chance. “Better” is used where a higher/lower value has positive implications for the health of older residents. “Worse” is used where a higher/lower score has negative implications for the health of older people, and when the implication is unclear, we use an *. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed we used a hierarchical approach to reporting. When possible we report estimates for 244 geographic units (i.e., every NH city/town and 5 Manchester neighborhoods, 4 Nashua neighborhoods). For example, the population characteristics were reported for all 244 units. For other data (i.e., highly prevalent chronic disease, health services utilization) we could report for 154 geographic units. For less prevalent conditions we report for 69 geographic units. For the BRFSS data we report for 28 geographic units, and for the lowest prevalence conditions (e.g., HIV) we report for 4 geographic units. The same estimate is reported for all cities/towns within aggregated geographic areas. Maps of the different geographic groupings and the rationale behind the groupings are in the Technical Report.

Data Sources:

- Population Characteristics: The U.S. Census Bureau (American Community Survey 2012-2016).
- Wellness & Prevention: The Behavioral Risk Factor Surveillance System (2011-2016).
- Nutrition/Diet: BRFSS (2011-2016), CMS (2014-2015), and the U.S. Department of Agriculture Food Atlas (2017).
- Behavioral Health: BRFSS (2011-2016), CMS (2014-2015), CDC Wonder website (2014-2016).
- Chronic Disease: The Master Beneficiary Summary File ABCD/Other from CMS (2014-2015).
- Disability: CMS (2014-2015) for the clinical measures, and ACS (2012-2016) for the self-reported disability.
- Access to Care: BRFSS (2011-2016), CMS (2015), Medicare.gov (June-July 2018), the NH Division of Public Health Services (2018), National Adult Day Services Association (2018), memorycaresdirectory.com (2018), and the Alzheimer’s Association (July 2018).
- Service Utilization: CMS (2015), and Medicare Nursing Home Compare (December 2018).
