

## Redding (Fairfield)

Redding is a town in Fairfield County with 2,059 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of anemia, chronic kidney disease, chronic obstructive pulmonary disease (COPD), congestive heart failure (CHF), diabetes, heart attack, hypertension, substance and tobacco use disorders, depression, anxiety disorder, and PTSD. However, they have higher rates of breast cancer, cataract, osteoporosis, and prostate cancer. Older residents in Fairfield County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (73.6%) and annual dental exams (72.4%), while 49.5% of men and 44.9% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include one assisted living facility, one skilled nursing facility, one senior center, and one public library.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		8,785	3,611,317
Population 60 years or older as % of total population		32.2%	24.5%
Total population 60 years and older		2,829	885,046
Population 65 years or older as % of total population		23.4%	17.4%
Total population 65 years and older		2,059	629,108
% 65-74 years	*	47.4%	57.6%
% 75-84 years		26.9%	28.4%
% 85 years or older	*	25.7%	14.0%
% 65+ population who are female		52.5%	55.7%
% 85+ population who are female		55.6%	66.0%
Race and ethnicity of the population 65+			
% White	*	91.7%	84.8%
% African American	*	0.7%	6.7%
% Asian		4.5%	2.6%
% Other race(s)		3.2%	5.9%
% Hispanic	*	1.7%	6.7%
# 55+ who are Native American / Alaskan		19	1,729

<b>ACCESS TO CARE</b>			
% 65+ dually eligible for Medicare and Medicaid	*	5.7%	22.5%
% 65+ Medicare managed care enrollees	*	28.8%	50.1%
% 18-64 who lack health insurance (County)		8.0%	NA
# of primary care providers		0	4,547
# of hospitals		0	36
# of home health agencies		0	80
# of skilled nursing facilities		1	202
# of hospice agencies		0	27
# of community health centers		0	388
# of adult day health centers		0	38
<b>SERVICE UTILIZATION</b>			
# physician visits per year	*	9.6	8.4
# emergency room visits/1000 persons 65+ years annually	*	414.3	586.6
# Part D monthly prescription fills per person annually	*	43.4	52.1
# home health visits annually	*	2.0	3.1
# durable medical equipment claims annually	*	1.3	2.0
# inpatient hospital stays/1000 persons 65+ years annually	*	179.0	241.8
% Medicare inpatient hospital readmissions (as % of admissions)		16.1%	17.6%
# skilled nursing facility stays/1000 persons 65+ years annually		80.9	89.9
# skilled nursing home Medicare beds/1000 persons 65+ years		29.1	37.1
% 65+ getting Medicaid long term services and supports	*	1.0%	4.4%
% 65+ hospice users		2.6%	2.6%
% 65+ hospice users as % of decedents		39.8%	42.4%

## NOTES

## TECHNICAL NOTES

\*For more information on data sources, measures, and methodology used in the 2025 Connecticut Healthy Aging Data Report see our technical documentation at ([healthyagingdatareports.org](http://healthyagingdatareports.org)). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
