

Bristol (Hartford)

Bristol is a city in Hartford County with 9,426 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of glaucoma, osteoarthritis/rheumatoid arthritis, osteoporosis, peripheral vascular disease, and prostate cancer. However, they have higher rates of Alzheimer's disease or related dementias, asthma, chronic kidney disease, chronic obstructive pulmonary disease (COPD), congestive heart failure (CHF), diabetes, hypertension, tobacco use disorder, depression, anxiety disorder, PTSD, and schizophrenia. Older residents in Hartford County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (77.9%) and annual dental exams (69.2%), while 46.5% of men and 47.1% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include three assisted living facilities, 52 primary care providers, one hospital, one home health agency, five skilled nursing facilities, one hospice agency, 18 community health centers, one senior center, one public university or community college, and two public libraries.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		61,052	3,611,317
Population 60 years or older as % of total population		21.4%	24.5%
Total population 60 years and older		13,053	885,046
Population 65 years or older as % of total population		15.4%	17.4%
Total population 65 years and older		9,426	629,108
% 65-74 years		56.2%	57.6%
% 75-84 years		28.3%	28.4%
% 85 years or older		15.4%	14.0%
% 65+ population who are female		57.2%	55.7%
% 85+ population who are female		64.5%	66.0%
Race and ethnicity of the population 65+			
% White	*	90.0%	84.8%
% African American	*	1.9%	6.7%
% Asian		2.0%	2.6%
% Other race(s)		6.1%	5.9%
% Hispanic		5.6%	6.7%
# 55+ who are Native American / Alaskan		13	1,729
Marital status of the population 65+			
% married		51.4%	54.5%
% divorced/separated		17.0%	16.1%
% widowed	*	25.5%	21.2%
% never married		6.1%	8.2%
Education of the population 65+			
% with less than high school education	*	15.8%	11.9%
% with high school or some college	*	64.8%	52.4%
% with college degree	*	12.4%	17.0%
% with graduate or professional degree	*	6.9%	18.6%
% 65+ population who speak only English at home		81.5%	84.4%
% 65+ population who are veterans of military service		15.2%	13.4%

% 65+ with self-reported self-care difficulty		8.9%	6.9%
% 65+ with self-reported independent living difficulty		14.2%	12.7%
CAREGIVING			
# of Alzheimer's support groups		0	29
% grandparents raising grandchildren		0.47%	0.73%

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 Connecticut Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
