

## Haddam (Middlesex)

Haddam is a town in Middlesex County with 1,648 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of anemia, diabetes, ischemic heart disease, osteoporosis, and PTSD. However, they have a higher rate of tobacco use disorder. Older residents in Middlesex County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (79.1%) and annual dental exams (74.4%), while 56.1% of men and 47.6% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include two assisted living facilities, three primary care providers, one senior center, and one public library.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		8,492	3,611,317
Population 60 years or older as % of total population		28.9%	24.5%
Total population 60 years and older		2,454	885,046
Population 65 years or older as % of total population		19.4%	17.4%
Total population 65 years and older		1,648	629,108
% 65-74 years		63.8%	57.6%
% 75-84 years		25.5%	28.4%
% 85 years or older		10.7%	14.0%
% 65+ population who are female		52.8%	55.7%
% 85+ population who are female		46.9%	66.0%
Race and ethnicity of the population 65+			
% White	*	81.7%	84.8%
% African American	*	1.0%	6.7%
% Asian		9.2%	2.6%
% Other race(s)		8.1%	5.9%
% Hispanic	*	1.9%	6.7%
# 55+ who are Native American / Alaskan		13	1,729
Marital status of the population 65+			
% married	*	71.5%	54.5%

# of hospitals		0	36
# of home health agencies		0	80
# of skilled nursing facilities		0	202
# of hospice agencies		0	27
# of community health centers		0	388
# of adult day health centers		0	38
<b>SERVICE UTILIZATION</b>			
# physician visits per year		7.9	8.4
# emergency room visits/1000 persons 65+ years annually		506.4	586.6
# Part D monthly prescription fills per person annually	*	47.1	52.1
# home health visits annually		2.6	3.1
# durable medical equipment claims annually		2.2	2.0
# inpatient hospital stays/1000 persons 65+ years annually		262.1	241.8
% Medicare inpatient hospital readmissions (as % of admissions)		25.7%	17.6%
# skilled nursing facility stays/1000 persons 65+ years annually		77.3	89.9
# skilled nursing home Medicare beds/1000 persons 65+ years		0.0	37.1
% 65+ getting Medicaid long term services and supports	*	1.6%	4.4%
% 65+ hospice users		2.9%	2.6%
% 65+ hospice users as % of decedents		47.4%	42.4%

## NOTES

## TECHNICAL NOTES

\*For more information on data sources, measures, and methodology used in the 2025 Connecticut Healthy Aging Data Report see our technical documentation at ([healthyagingdatareports.org](http://healthyagingdatareports.org)). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
