

Killingworth (Middlesex)

Killingworth is a town in Middlesex County with 1,354 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of colon cancer, congestive heart failure (CHF), diabetes, peripheral vascular disease, pressure ulcer, and schizophrenia. Older residents in Middlesex County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (79.1%) and annual dental exams (74.4%), while 56.1% of men and 47.6% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include one senior center and one public library.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		6,216	3,611,317
Population 60 years or older as % of total population		33.1%	24.5%
Total population 60 years and older		2,059	885,046
Population 65 years or older as % of total population		21.8%	17.4%
Total population 65 years and older		1,354	629,108
% 65-74 years		56.5%	57.6%
% 75-84 years		31.8%	28.4%
% 85 years or older		11.7%	14.0%
% 65+ population who are female		59.6%	55.7%
% 85+ population who are female		93.7%	66.0%
Race and ethnicity of the population 65+			
% White	*	97.1%	84.8%
% African American	*	0.0%	6.7%
% Asian		0.0%	2.6%
% Other race(s)		2.9%	5.9%
% Hispanic	*	0.0%	6.7%
# 55+ who are Native American / Alaskan		0	1,729

# of Alzheimer's support groups		0	29
% grandparents raising grandchildren	*	0.00%	0.73%

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 Connecticut Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
