

Newtown (Fairfield)

Newtown is a town in Fairfield County with 5,061 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of Alzheimer’s disease or related dementias, chronic obstructive pulmonary disease (COPD), congestive heart failure (CHF), heart attack, hypertension, pressure ulcer, substance and tobacco use disorders, and schizophrenia. However, they have a higher rate of asthma. Older residents in Fairfield County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (73.6%) and annual dental exams (72.4%), while 49.5% of men and 44.9% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include three assisted living facilities, 23 primary care providers, one skilled nursing facility, one Alzheimer’s caregiver support group, one community health center, one adult day health center, one senior center, one public university or community college, and one public library. Newtown is a designated AARP Age-Friendly Community.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		27,341	3,611,317
Population 60 years or older as % of total population		26.7%	24.5%
Total population 60 years and older		7,297	885,046
Population 65 years or older as % of total population		18.5%	17.4%
Total population 65 years and older		5,061	629,108
% 65-74 years		57.9%	57.6%
% 75-84 years		29.8%	28.4%
% 85 years or older		12.3%	14.0%
% 65+ population who are female		52.7%	55.7%
% 85+ population who are female		64.0%	66.0%
Race and ethnicity of the population 65+			
% White	*	96.3%	84.8%
% African American	*	1.0%	6.7%
% Asian	*	0.8%	2.6%

% 65+ with self-reported self-care difficulty		6.6%	6.9%
% 65+ with self-reported independent living difficulty		12.0%	12.7%
CAREGIVING			
# of Alzheimer's support groups		1	29
% grandparents raising grandchildren		0.66%	0.73%

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 Connecticut Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
