

Hallowell (Kennebec)

Hallowell is a city in Kennebec County with 776 residents aged 65 and older. Compared to state average rates, older residents fare worse on some healthy aging indicators with higher rates of hip fracture, Alzheimer's disease or related dementias, anemia, stroke, and schizophrenia. Older residents in Kennebec County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (77.7%) and annual dental exams (67.3%), while 53.7% of men and 41% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include one adult day health center, one public library, and one assisted living facility. Hallowell is a designated AARP Age-Friendly Community.

POPULATION CHARACTERISTICS

	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		2,558	1,366,949

% 65+ getting Medicaid long term services and supports		1.4%	2.1%
% 65+ hospice users		3.3%	3.0%
% 65+ hospice users as % of decedents		45.2%	49.7%

NOTES

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 Maine Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
