

## Knox, Thorndike, Troy (Waldo)

The communities of Knox, Thorndike, and Troy are located in Waldo County. Collectively, these areas are home to 495 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of hypertension, depression, anxiety disorder, and schizophrenia. Older residents in Waldo County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (75.5%) and annual dental exams (63.1%), while 46.5% of men and 44.8% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Knox, Thorndike, and Troy are all designated AARP Age-Friendly Communities.

### POPULATION CHARACTERISTICS

	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		3,344	1,366,949
Population 60 years or older as % of total population		22.2%	29.4%
Total population 60 years and older		744	402,170
Population 65 years or older as % of total population		14.8%	21.5%
Total population 65 years and older		495	293,488
% 65-74 years		62.4%	59.9%
% 75-84 years		23.4%	28.5%
% 85 years or older		14.1%	11.6%
% 65+ population who are female		53.1%	54.3%
% 85+ population who are female		87.1%	64.8%
Race and ethnicity of the population 65+			
% White		96.6%	96.6%
% African American		0.0%	0.3%
% Asian		0.0%	0.5%
% Other race(s)		3.4%	2.5%
% Hispanic		2.6%	0.7%
# 55+ who are Native American / Alaskan		0	1,794
Marital status of the population 65+			
% married		54.9%	57.0%
% divorced/separated		15.2%	16.9%
% widowed		27.9%	20.6%
% never married		2.0%	5.6%
Education of the population 65+			
% with less than high school education		9.1%	7.6%
% with high school or some college		67.5%	59.0%
% with college degree		13.5%	18.3%
% with graduate or professional degree		9.9%	15.1%
% 65+ population who speak only English at home		95.4%	92.7%
% 65+ population who are veterans of military service		20.0%	18.4%

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
<b>HOUSING</b>			
% 65+ population who live alone		24.4%	28.3%

# skilled nursing home Medicare beds/1000 persons 65+ years		0.0	20.0
% 65+ getting Medicaid long term services and supports	*	0.9%	2.1%
% 65+ hospice users		2.8%	3.0%
% 65+ hospice users as % of decedents		59.5%	49.7%

NOTES

## TECHNICAL NOTES

\*For more information on data sources, measures, and methodology used in the 2025 Maine Healthy Aging Data Report see our technical documentation at ([healthyagingdatareports.org](https://healthyagingdatareports.org)). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
