

Lewiston (Androscoggin)

Lewiston is a city in Androscoggin County with 6,971 residents aged 65 and older. Compared to state average rates, older residents have higher rates of high cholesterol, Alzheimer's disease, anemia, asthma, chronic kidney disease, COPD, CHF, diabetes, heart attack, hypertension, ischemic heart disease, liver disease, arthritis, osteoporosis, peripheral vascular disease, pressure ulcer, stroke, substance use disorder, depression, anxiety disorder, and schizophrenia. Residents in Androscoggin County varied in obtaining preventive health screenings: residents 18+ got annual physical exams (78.3%) and annual dental exams (58.9%), while 47.4% of men and 33.9% of women 65+ completed all CDC recommended vaccinations and cancer screenings. Community resources include 138 primary care providers, two hospitals, one home health agency, four skilled nursing facilities, two hospice agencies, six community health centers, one adult day health center, two public universities or community colleges, one public library, one assisted living facility, and one Alzheimer's disease support group. Lewiston is a designated AARP Age-Friendly Community.

POPULATION CHARACTERISTICS

	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		37,577	1,366,949
Population 60 years or older as % of total population		24.0%	29.4%
Total population 60 years and older		9,028	402,170
Population 65 years or older as % of total population		18.6%	21.5%
Total population 65 years and older		6,971	293,488
% 65-74 years	*	52.3%	59.9%
% 75-84 years		33.1%	28.5%
% 85 years or older		14.6%	11.6%
% 65+ population who are female		55.2%	54.3%
% 85+ population who are female		71.9%	64.8%
Race and ethnicity of the population 65+			
% White		98.0%	96.6%
% African American		0.6%	0.3%
% Asian		0.2%	0.5%
% Other race(s)		1.2%	2.5%
% Hispanic		0.5%	0.7%
# 55+ who are Native American / Alaskan		6	1,794
Marital status of the population 65+			
% married	*	46.7%	57.0%
% divorced/separated		21.2%	16.9%
% widowed		25.3%	20.6%
% never married		6.9%	5.6%
Education of the population 65+			
% with less than high school education	*	18.2%	7.6%
% with high school or some college	*	64.9%	59.0%
% with college degree	*	9.4%	18.3%
% with graduate or professional degree	*	7.5%	15.1%
% 65+ population who speak only English at home	*	63.5%	92.7%
% 65+ population who are veterans of military service		19.3%	18.4%

% 65+ hospice users	*	4.3%	3.0%
% 65+ hospice users as % of decedents	*	55.9%	49.7%

NOTES

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 Maine Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
