

New Sweden, Perham, Stockholm, Wade, Westmanland (Aroostook)

The communities of New Sweden, Perham, Stockholm, Wade, and Westmanland are located in Aroostook County. Collectively, these areas are home to 375 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of breast cancer and glaucoma. However, they have higher rates of high cholesterol, chronic kidney disease, chronic obstructive pulmonary disease (COPD), colon cancer, diabetes, and schizophrenia. Older residents in Aroostook County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (81.1%) and annual dental exams (59.8%), while 43.1% of men and 36% of women 65 and older completed all CDC recommended vaccinations and cancer screenings.

POPULATION CHARACTERISTICS

	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		1,423	1,366,949
Population 60 years or older as % of total population		40.8%	29.4%
Total population 60 years and older		580	402,170
Population 65 years or older as % of total population		26.4%	21.5%
Total population 65 years and older		375	293,488
% 65-74 years		68.5%	59.9%
% 75-84 years		21.9%	28.5%
% 85 years or older		9.6%	11.6%
% 65+ population who are female		50.7%	54.3%
% 85+ population who are female		69.4%	64.8%
Race and ethnicity of the population 65+			
% White		93.9%	96.6%

NOTES

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 Maine Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
