

Richmond (Sagadahoc)

Richmond is a town in Sagadahoc County with 562 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of anemia, asthma, benign prostatic hyperplasia, breast cancer, cataract, osteoarthritis/rheumatoid arthritis, prostate cancer, substance use disorder, and anxiety disorder. Older residents in Sagadahoc County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (78.2%) and annual dental exams (68.6%), while 52% of men and 48.3% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include four primary care providers, one community health center, one senior center, and a public library.

POPULATION CHARACTERISTICS

	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		3,536	1,366,949

NOTES

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 Maine Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
