

Waldoboro (Lincoln)

Waldoboro is a town in Lincoln County with 1,384 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of hip fracture, high cholesterol, asthma, diabetes, hypertension, peripheral vascular disease, PTSD, and schizophrenia. Older residents in Lincoln County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (76.4%) and annual dental exams (70%), while 53.5% of men and 41.5% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include five primary care providers and a public library.

POPULATION CHARACTERISTICS

	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		5,178	1,366,949
Population 60 years or older as % of total population		40.4%	29.4%
Total population 60 years and older		2,093	402,170
Population 65 years or older as % of total population		26.7%	21.5%
Total population 65 years and older		1,384	293,488
% 65-74 years		58.7%	59.9%
% 75-84 years		24.1%	28.5%
% 85 years or older		17.2%	11.6%
% 65+ population who are female		60.8%	54.3%
% 85+ population who are female		66.8%	64.8%
Race and ethnicity of the population 65+			
% White		95.5%	96.6%
% African American		0.0%	0.3%
% Asian		0.0%	0.5%
% Other race(s)		4.5%	2.5%
% Hispanic		0.0%	0.7%
# 55+ who are Native American / Alaskan		32	1,794

NOTES

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 Maine Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
