

Brownfield, Denmark (Oxford)

The communities of Brownfield and Denmark are located in Oxford County. Collectively, these areas are home to 584 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of Alzheimer's disease or related dementias, anemia, benign prostatic hyperplasia, and heart attack. However, they have a higher rate of osteoarthritis/rheumatoid arthritis. Older residents in Oxford County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (76.5%) and annual dental exams (57.6%), while 43.2% of men and 38.8% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include two public libraries.

POPULATION CHARACTERISTICS

	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		2,872	1,366,949
Population 60 years or older as % of total population		31.1%	29.4%
Total population 60 years and older		893	402,170
Population 65 years or older as % of total population		20.3%	21.5%
Total population 65 years and older		584	293,488
% 65-74 years		68.3%	59.9%
% 75-84 years	*	15.4%	28.5%
% 85 years or older		16.3%	11.6%
% 65+ population who are female		50.7%	54.3%
% 85+ population who are female		51.6%	64.8%
Race and ethnicity of the population 65+			
% White		95.4%	96.6%
% African American		0.0%	0.3%
% Asian		0.0%	0.5%
% Other race(s)		4.6%	2.5%
% Hispanic		1.0%	0.7%
# 55+ who are Native American / Alaskan		0	1,794
Marital status of the population 65+			
% married		64.9%	57.0%
% divorced/separated		15.6%	16.9%
% widowed		17.5%	20.6%
% never married		2.1%	5.6%
Education of the population 65+			
% with less than high school education		6.0%	7.6%
% with high school or some college		68.0%	59.0%
% with college degree		17.6%	18.3%
% with graduate or professional degree		8.4%	15.1%
% 65+ population who speak only English at home		98.3%	92.7%
% 65+ population who are veterans of military service		19.2%	18.4%

% 65+ hospice users		2.6%	3.0%
% 65+ hospice users as % of decedents		52.6%	49.7%

NOTES

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 Maine Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
