

## Carrabassett Valley, Coplin, East Central Franklin, Eustis, Kingfield, North Franklin, Wyman (Franklin)

The communities of Carrabassett Valley, Coplin, East Central Franklin, Eustis, Kingfield, North Franklin, and Wyman are located in Franklin County. Collectively, these areas are home to 850 residents aged 65 and older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of Alzheimer's disease or related dementias, anemia, chronic kidney disease, diabetes, glaucoma, heart attack, hypertension, lung cancer, osteoarthritis/rheumatoid arthritis, osteoporosis, peripheral vascular disease, pressure ulcer, stroke, depression, and anxiety disorder. Older residents in Franklin County varied in obtaining preventive health screenings: residents 18 and older got annual physical exams (77.2%) and annual dental exams (62.5%), while 52% of men and 40.6% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include six primary care providers, one community health center, and three public libraries.

### POPULATION CHARACTERISTICS

	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		2,948	1,366,949
Population 60 years or older as % of total population		36.5%	29.4%
Total population 60 years and older		1,076	402,170
Population 65 years or older as % of total population		28.8%	21.5%
Total population 65 years and older		850	293,488
% 65-74 years		60.5%	59.9%
% 75-84 years		33.3%	28.5%
% 85 years or older		6.2%	11.6%
% 65+ population who are female		49.4%	54.3%
% 85+ population who are female		71.7%	64.8%
Race and ethnicity of the population 65+			
% White		98.5%	96.6%
% African American		0.0%	0.3%
% Asian		0.0%	0.5%
% Other race(s)		1.5%	2.5%
% Hispanic		0.9%	0.7%
# 55+ who are Native American / Alaskan		0	1,794
Marital status of the population 65+			
% married		64.0%	57.0%
% divorced/separated		20.0%	16.9%
% widowed		14.5%	20.6%
% never married		1.5%	5.6%

% 65+ hospice users	*	1.8%	3.0%
% 65+ hospice users as % of decedents		36.6%	49.7%

NOTES

## TECHNICAL NOTES

\*For more information on data sources, measures, and methodology used in the 2025 Maine Healthy Aging Data Report see our technical documentation at ([healthyagingdatareports.org](https://healthyagingdatareports.org)). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
