

Hillsborough (Hillsborough)

Hillsborough is a town in Hillsborough County with 1,066 residents aged 65 or older. Compared to state average rates, older residents have lower rates of Alzheimer's disease, anemia, atrial fibrillation, benign prostatic hyperplasia, chronic kidney disease, chronic obstructive pulmonary disease (COPD), congestive heart failure (CHF), fibromyalgia/chronic pain/fatigue, hypertension, ischemic heart disease, osteoarthritis/rheumatoid arthritis, osteoporosis, peripheral vascular disease, pressure ulcer, prostate cancer, depression, anxiety disorder, and high cholesterol. However, they have a higher rate of tobacco use disorder. Older residents in Hillsborough County vary in obtaining preventive health screenings: residents 18 and older got annual physical exams (72.8%) and annual dental exams (69.8%), while 47.8% of men and 38.3% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include three primary care providers, one skilled nursing facility, and one public library.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		5,960	1,379,610
Population 60 years or older as % of total population		26.1%	26.7%
Total population 60 years and older		1,557	368,151
Population 65 years or older as % of total population		17.9%	19.0%
Total population 65 years and older		1,066	261,749
% 65-74 years		63.7%	60.7%
% 75-84 years		27.9%	28.0%
% 85 years or older		8.4%	11.3%
% 65+ population who are female		53.5%	53.9%
% 85+ population who are female		50.0%	64.0%
Race and ethnicity of the population 65+			
% White		95.7%	95.7%
% African American		2.2%	0.6%
% Asian		0.0%	1.3%
% Other race(s)		2.2%	2.3%
% Hispanic		0.0%	1.1%
# 55+ who are Native American / Alaskan		0	549
Marital status of the population 65+			
% married		48.0%	58.5%
% divorced/separated		19.5%	16.5%
% widowed		30.0%	20.0%
% never married		2.4%	5.1%
Education of the population 65+			
% with less than high school education		10.1%	8.1%
% with high school or some college		60.9%	56.3%
% with college degree		19.0%	19.6%
% with graduate or professional degree		9.9%	16.0%
% 65+ population who speak only English at home		97.9%	93.4%
% 65+ population who are veterans of military service		22.5%	18.0%

POPULATION CHARACTERISTICS

	Significantly different than state rate	Community estimate	State estimate
HOUSING			
% 65+ population who live alone		25.8%	25.5%
Average household size (all ages)		2.6	2.5
Median house value (all ages)	*	\$227,400	\$337,100
% 60+ own home	*	95.3%	80.2%
% 60+ homeowners who have mortgage		47.0%	42.8%
% 65+ households (renter) spend >35% of income on housing		77.8%	44.1%
% 65+ households (owner) spend >35% of income on housing	*	47.3%	25.0%
% grandparents who live with grandchildren		3.1%	2.5%
# of assisted living sites		0	24

SOCIAL DETERMINANTS OF HEALTH

COST OF LIVING

% 65+ getting Medicaid long term services and supports		2.4%	2.7%
% 65+ hospice users		3.0%	2.7%
% 65+ hospice users as % of decedents		50.7%	47.1%

NOTES

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 New Hampshire Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
