

Kingston (Rockingham)

Kingston is a town in Rockingham County with 1,374 residents aged 65 or older. Compared to state average rates, older residents fare better on one healthy aging indicator with a lower rate of hip fracture. However, they have higher rates of anemia, atrial fibrillation, chronic obstructive pulmonary disease (COPD), liver disease, lung cancer, and high cholesterol. Older residents in Rockingham County vary in obtaining preventive health screenings: residents 18 and older got annual physical exams (75.2%) and annual dental exams (74.3%), while 48.6% of men and 41.7% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include one primary care provider and one public library.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		6,226	1,379,610
Population 60 years or older as % of total population		34.9%	26.7%
Total population 60 years and older		2,170	368,151
Population 65 years or older as % of total population		22.1%	19.0%
Total population 65 years and older		1,374	261,749
% 65-74 years		64.0%	60.7%
% 75-84 years		25.5%	28.0%
% 85 years or older		10.4%	11.3%
% 65+ population who are female	*	42.8%	53.9%
% 85+ population who are female		57.3%	64.0%
Race and ethnicity of the population 65+			
% White		97.2%	95.7%
% African American		0.0%	0.6%
% Asian		1.3%	1.3%

CAREGIVING			
# of Alzheimer's support groups		0	5
% grandparents raising grandchildren	*	0.00%	0.69%

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 New Hampshire Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
