

Pittsburg (Coös)

Pittsburg is a town in Coös County with 354 residents aged 65 or older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of Alzheimer's disease or related dementias, glaucoma, liver disease, depression, anxiety disorder, and schizophrenia. However, they have higher rates of diabetes, hypertension, and PTSD. Older residents in Coös County vary in obtaining preventive health screenings: residents 18 and older got annual physical exams (74.3%) and annual dental exams (56.9%), while 46.2% of men and 35% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. A community resource to support healthy aging is their public library.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		701	1,379,610
Population 60 years or older as % of total population		60.5%	26.7%
Total population 60 years and older		424	368,151
Population 65 years or older as % of total population		50.5%	19.0%
Total population 65 years and older		354	261,749
% 65-74 years		75.4%	60.7%
% 75-84 years	*	20.3%	28.0%
% 85 years or older	*	4.2%	11.3%
% 65+ population who are female		49.2%	53.9%
% 85+ population who are female		73.3%	64.0%
Race and ethnicity of the population 65+			
% White		99.2%	95.7%

% 65+ hospice users		2.6%	2.7%
% 65+ hospice users as % of decedents	*	29.9%	47.1%

NOTES

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 New Hampshire Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
