Tilton (Belknap)

Tilton is a town in Belknap County with 895 residents aged 65 or older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of benign prostatic hyperplasia, breast cancer, cataract, fibromyalgia/chronic pain/fatigue, glaucoma, migraine, and osteoporosis. However, they have higher rates of atrial fibrillation, chronic obstructive pulmonary disease (COPD), congestive heart failure (CHF), diabetes, ischemic heart disease, peripheral vascular disease, stroke, tobacco use disorder, depression, and schizophrenia. Older residents in Belknap County vary in obtaining preventive health screenings: residents 18 and older got annual physical exams (72.6%) and annual dental exams (66.4%), while 50% of men and 41.4% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include four primary care providers.

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 New Hampshire Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms "Better" and "Worse" to highlight differences between community and state estimates that we are confident are <a href="https://no.com/no.co

Data Sources:

- Population Characteristics: The U.S. Census Bureau (American Community Survey (ACS)) 2018-2022.
