

Benton (Grafton)

Benton is a town in Grafton County with 142 residents aged 65 or older. Compared to state average rates, older residents have a lower rate of high cholesterol and benign prostatic hyperplasia. However, they have higher rates of anemia, cataract, diabetes, heart attack, hypertension, and peripheral vascular disease. Older residents in Grafton County vary in obtaining preventive health screenings: residents 18 and older got annual physical exams (70.4%) and annual dental exams (67.2%), while 48.6% of men and 42.7% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. A community resource to support healthy aging is a skilled nursing facility.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		392	1,379,610
Population 60 years or older as % of total population		55.6%	26.7%
Total population 60 years and older		218	368,151
Population 65 years or older as % of total population		36.2%	19.0%
Total population 65 years and older		142	261,749
% 65-74 years		62.0%	60.7%
% 75-84 years		27.5%	28.0%
% 85 years or older		10.6%	11.3%
% 65+ population who are female		56.3%	53.9%
% 85+ population who are female		66.7%	64.0%
Race and ethnicity of the population 65+			
% White		99.3%	95.7%
% African American		0.0%	0.6%
% Asian		0.0%	1.3%
% Other race(s)		0.7%	2.3%

% 65+ hospice users as % of decedents	*	34.9%	47.1%

NOTES

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 New Hampshire Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
