

## Wakefield (Carroll)

Wakefield is a town in Carroll County with 1,111 residents aged 65 or older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of Alzheimer's disease or related dementias, cataract, glaucoma, migraine, osteoporosis, stroke, and schizophrenia. Older residents in Carroll County vary in obtaining preventive health screenings: residents 18 and older got annual physical exams (74.6%) and annual dental exams (66.3%), while 53.8% of men and 40.9% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. Community resources to support healthy aging include two primary care providers and two public libraries.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		5,266	1,379,610
Population 60 years or older as % of total population		30.1%	26.7%
Total population 60 years and older		1,584	368,151
Population 65 years or older as % of total population		21.1%	19.0%
Total population 65 years and older		1,111	261,749
% 65-74 years		58.6%	60.7%
% 75-84 years		37.6%	28.0%
% 85 years or older	*	3.8%	11.3%
% 65+ population who are female		44.1%	53.9%
% 85+ population who are female		33.3%	64.0%
Race and ethnicity of the population 65+			
% White		98.3%	95.7%
% African American		0.0%	0.6%
% Asian		0.0%	1.3%
% Other race(s)		1.7%	2.3%
% Hispanic		1.4%	1.1%
# 55+ who are Native American / Alaskan		0	549
Marital status of the population 65+			
% married	*	76.0%	58.5%
% divorced/separated		9.9%	16.5%
% widowed		12.4%	20.0%

# inpatient hospital stays/1000 persons 65+ years annually		216.0	187.5
% Medicare inpatient hospital readmissions (as % of admissions)	*	28.8%	16.2%
# skilled nursing facility stays/1000 persons 65+ years annually	*	18.6	45.0
# skilled nursing home Medicare beds/1000 persons 65+ years		0.0	26.1
% 65+ getting Medicaid long term services and supports		2.9%	2.7%
% 65+ hospice users	*	2.2%	2.7%
% 65+ hospice users as % of decedents		46.3%	47.1%

### NOTES

## TECHNICAL NOTES

\*For more information on data sources, measures, and methodology used in the 2025 New Hampshire Healthy Aging Data Report see our technical documentation at ([healthyagingdatareports.org](http://healthyagingdatareports.org)). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
