

## Dublin (Cheshire)

Dublin is a town in Cheshire County with 443 residents aged 65 or older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of high cholesterol, anemia, atrial fibrillation, benign prostatic hyperplasia, breast cancer, chronic kidney disease, chronic obstructive pulmonary disease (COPD), diabetes, heart attack, hypertension, ischemic heart disease, lung cancer, peripheral vascular disease, depression, anxiety disorder, PTSD, and schizophrenia. Older residents in Cheshire County vary in obtaining preventive health screenings: residents 18 and older got annual physical exams (66.3%) and annual dental exams (65.5%), while 50.1% of men and 41.5% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. A community resource to support healthy aging is their public library.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		1,711	1,379,610
Population 60 years or older as % of total population		31.3%	26.7%
Total population 60 years and older		536	368,151
Population 65 years or older as % of total population		25.9%	19.0%
Total population 65 years and older		443	261,749
% 65-74 years		71.1%	60.7%
% 75-84 years		22.3%	28.0%
% 85 years or older		6.5%	11.3%
% 65+ population who are female		53.7%	53.9%
% 85+ population who are female		65.5%	64.0%
Race and ethnicity of the population 65+			
% White		93.7%	95.7%
% African American		1.1%	0.6%
% Asian		2.7%	1.3%
% Other race(s)		2.5%	2.3%
% Hispanic		1.8%	1.1%
# 55+ who are Native American / Alaskan		0	549
Marital status of the population 65+			
% married	*	80.6%	58.5%
% divorced/separated		8.4%	16.5%
% widowed		10.6%	20.0%
% never married		0.5%	5.1%
Education of the population 65+			
% with less than high school education	*	0.7%	8.1%
% with high school or some college		47.9%	56.3%
% with college degree	*	33.0%	19.6%
% with graduate or professional degree		18.5%	16.0%
% 65+ population who speak only English at home		97.1%	93.4%
% 65+ population who are veterans of military service	*	6.5%	18.0%

## POPULATION CHARACTERISTICS

	Significantly different than state rate	Community estimate	State estimate
<b>HOUSING</b>			
% 65+ population who live alone	*	7.2%	25.5%
Average household size (all ages)		2.6	2.5
Median house value (all ages)		\$358,200	\$337,100
% 60+ own home	*	93.0%	80.2%
% 60+ homeowners who have mortgage		32.6%	42.8%
% 65+ households (renter) spend >35% of income on housing		75.0%	44.1%
% 65+ households (owner) spend >35% of income on housing		22.5%	25.0%
% grandparents who live with grandchildren		1.2%	2.5%
# of assisted living sites		0	24

## SOCIAL DETERMINANTS OF HEALTH

### COST OF LIVING

<b>Elder Index</b>			
Single, homeowner without mortgage, good health (County)	0.98	\$30,228	\$30,948
Single, renter, good health (County)	0.94	\$30,804	\$32,784
Couple, homeowner without mortgage, good health (County)	0.99	\$45,060	\$45,336
Couple, renter, good health (County)	0.97	\$45,636	\$47,172

### ECONOMIC

% 60+ receiving food stamps in past year	*	1.2%	5.0%
% 65+ employed in past year		28.7%	21.5%
% 65+ with income below the poverty line in past year		15.1%	7.0%
Median annual income for households with a householder age 65+		\$81,071	\$60,844
% 65+ households with annual income < \$20,000		18.7%	13.2%
% 65+ households with annual income \$20,000-\$49,999	*	10.4%	28.1%
% 65+ households with annual income \$50,000-\$99,999		27.4%	30.7%
% 65+ households with annual income \$100,000+	*	43.5%	28.0%

### WELLNESS

% 18+ with less than 7 hours sleep (County)		33.6%	NA
% 18+ without leisure-time physical activity (County)		22.4%	NA
% 18+ with fair or poor self-reported health status (County)		13.6%	NA
% 18+ with 14+ physically unhealthy days (County)		10.7%	NA

### COMMUNITY

% 65+ hospice users	*	2.2%	2.7%
% 65+ hospice users as % of decedents		42.8%	47.1%

**NOTES**

## TECHNICAL NOTES

\*For more information on data sources, measures, and methodology used in the 2025 New Hampshire Healthy Aging Data Report see our technical documentation at ([healthyagingdatareports.org](http://healthyagingdatareports.org)). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
