

## Errol (Coös)

Errol is a town in Coös County with 115 residents aged 65 or older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of anemia, breast cancer, fibromyalgia/chronic pain/fatigue, glaucoma, osteoporosis, depression, and anxiety disorder. However, they have a higher rate of congestive heart failure (CHF). Older residents in Coös County vary in obtaining preventive health screenings: residents 18 and older got annual physical exams (74.3%) and annual dental exams (56.9%), while 46.2% of men and 35% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. A community resource to support healthy aging is their public library.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		310	1,379,610
Population 60 years or older as % of total population		52.9%	26.7%
Total population 60 years and older		164	368,151
Population 65 years or older as % of total population		37.1%	19.0%
Total population 65 years and older		115	261,749
% 65-74 years		54.8%	60.7%
% 75-84 years		40.0%	28.0%
% 85 years or older		5.2%	11.3%
% 65+ population who are female		40.9%	53.9%
% 85+ population who are female		0.0%	64.0%
Race and ethnicity of the population 65+			
% White		100.0%	95.7%
% African American		0.0%	0.6%
% Asian		0.0%	1.3%
% Other race(s)		0.0%	2.3%
% Hispanic		0.0%	1.1%
# 55+ who are Native American / Alaskan		0	549
Marital status of the population 65+			
% married		69.6%	58.5%
% divorced/separated		7.8%	16.5%
% widowed		19.1%	20.0%
% never married		3.5%	5.1%

% 65+ with self-reported hearing difficulty		21.7%	13.8%
% 65+ with self-reported vision difficulty		11.3%	4.8%
% 65+ with self-reported cognition difficulty		4.3%	6.5%
% 65+ with self-reported ambulatory difficulty		15.7%	16.7%
% 65+ with self-reported self-care difficulty		0.0%	5.3%
% 65+ with self-reported independent living difficulty		10.4%	10.1%
<b>CAREGIVING</b>			
# of Alzheimer's support groups		0	5
% grandparents raising grandchildren		0.00%	0.69%

## HEALTH OUTCOMES

	Significantly different than state rate	Community estimate	State estimate
<b>ACCESS TO CARE</b>			
% 65+ dually eligible for Medicare and Medicaid		7.7%	6.6%
% 65+ Medicare managed care enrollees	*	30.5%	26.5%
% 18-64 who lack health insurance (County)		9.4%	NA
# of primary care providers		0	1,852
# of hospitals		0	28
# of home health agencies		0	27
# of skilled nursing facilities		0	73
# of hospice agencies		0	20
# of community health centers		0	68
# of adult day health centers		0	12
<b>SERVICE UTILIZATION</b>			
# physician visits per year	*	2.0	6.1
# emergency room visits/1000 persons 65+ years annually		479.8	507.9
# Part D monthly prescription fills per person annually	*	45.2	49.1
# home health visits annually		1.5	1.9
# durable medical equipment claims annually		1.9	1.9
# inpatient hospital stays/1000 persons 65+ years annually		161.6	187.5
% Medicare inpatient hospital readmissions (as % of admissions)		20.3%	16.2%
# skilled nursing facility stays/1000 persons 65+ years annually		30.7	45.0
# skilled nursing home Medicare beds/1000 persons 65+ years		0.0	26.1
% 65+ getting Medicaid long term services and supports	*	4.8%	2.7%
% 65+ hospice users		2.5%	2.7%
% 65+ hospice users as % of decedents	*	31.3%	47.1%

## NOTES

## TECHNICAL NOTES

\*For more information on data sources, measures, and methodology used in the 2025 New Hampshire Healthy Aging Data Report see our technical documentation at ([healthyagingdatareports.org](http://healthyagingdatareports.org)). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
