

Freedom (Carroll)

Freedom is a town in Carroll County with 484 residents aged 65 or older. Compared to state average rates, older residents fare better on some healthy aging indicators with lower rates of Alzheimer's disease or related dementias, anemia, chronic kidney disease, chronic obstructive pulmonary disease (COPD), ischemic heart disease, migraine, osteoporosis, peripheral vascular disease, pressure ulcer, stroke, substance use disorder, anxiety disorder, and schizophrenia. Older residents in Carroll County vary in obtaining preventive health screenings: residents 18 and older got annual physical exams (74.6%) and annual dental exams (66.3%), while 53.8% of men and 40.9% of women 65 and older completed all CDC recommended vaccinations and cancer screenings. A community resource to support healthy aging is their public library. Freedom is a designated AARP Age-Friendly Community.

POPULATION CHARACTERISTICS	Significantly different than state rate	Community estimate	State estimate
Total population (all ages)		1,336	1,379,610
Population 60 years or older as % of total population		48.6%	26.7%
Total population 60 years and older		649	368,151
Population 65 years or older as % of total population		36.2%	19.0%
Total population 65 years and older		484	261,749
% 65-74 years		65.9%	60.7%
% 75-84 years		22.5%	28.0%
% 85 years or older		11.6%	11.3%
% 65+ population who are female		49.2%	53.9%
% 85+ population who are female		58.9%	64.0%
Race and ethnicity of the population 65+			
% White		100.0%	95.7%
% African American		0.0%	0.6%
% Asian		0.0%	1.3%
% Other race(s)		0.0%	2.3%
% Hispanic		0.0%	1.1%
# 55+ who are Native American / Alaskan		0	549
Marital status of the population 65+			
% married		64.5%	58.5%
% divorced/separated		15.5%	16.5%
% widowed		18.6%	20.0%
% never married		1.4%	5.1%

% 65+ getting Medicaid long term services and supports		2.9%	2.7%
% 65+ hospice users	*	2.2%	2.7%
% 65+ hospice users as % of decedents		46.3%	47.1%

NOTES

TECHNICAL NOTES

*For more information on data sources, measures, and methodology used in the 2025 New Hampshire Healthy Aging Data Report see our technical documentation at (healthyagingdatareports.org). For most indicators, the community and state values are estimates derived from sample data. Thus, it is possible that some of the differences between state and community estimates may be due to chance associated with population sampling. We use the terms “Better” and “Worse” to highlight differences between community and state estimates that we are confident are not due to chance. We balance two goals. First, we aim to report data at very local levels because we believe change is often locally driven. Second, we vowed to protect the privacy of the people providing the information reported. Thus, given the constraints of the data analyzed, we used a hierarchical approach to reporting.
